

# Do the sums

Carbon footprint calculators help you look at your life and figure out what choices would be best for you to make, and which changes would have the biggest effect. Here's some to try out. We don't back any one over the others, they *all* help you measure your carbon in different ways.

<p><b>Agrecalc (for farmers)</b> <a href="http://www.agrecalc.com/">//www.agrecalc.com/</a></p>	<p><b>Carbon Independent</b> <a href="http://carbonindependent.org/">//carbonindependent.org/</a></p>
<p><b>EcoPassenger</b> <a href="http://www.ecopassenger.org/">//www.ecopassenger.org/</a></p>	<p><b>Giki Zero</b> <a href="http://zero.giki.earth/">//zero.giki.earth/</a></p>
<p><b>Global Footprint Network</b> <a href="http://www.footprintcalculator.org/">//www.footprintcalculator.org/</a></p>	<p><b>Just One Earth</b> <a href="http://justone.earth/">//justone.earth/</a></p>
<p><b>Laura's Larder (CAT)</b> <a href="http://cat.org.uk/lauras-larder/">//cat.org.uk/lauras-larder/</a></p>	<p><b>My Emissions</b> <a href="http://myemissions.green/food-carbon-footprint-calculator/">//myemissions.green/food-carbon-footprint-calculator/</a></p>
<p><b>Pawprint</b> <a href="http://www.pawprint.eco/">www.pawprint.eco/</a></p>	<p><b>World Wildlife Fund</b> <a href="http://footprint.wwf.org.uk">//footprint.wwf.org.uk</a></p>
